Giving Shape to Ideas

# Introduction of PLANETARIA YOKOHAMA

Planetaria Yokohama is a premium planetarium that invites viewers to make the starry sky part of their lifestyle. Enjoy this total-entertainment facility, with its Dome programs, café and gift shop.

## DOME

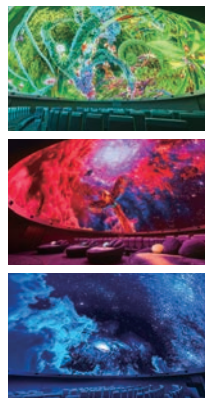

### A special starry sky viewed from Planet Seats

The front four rows of the planetarium are premium "Planet Seats." Each seat is a different color representing a planet, so viewers can make new discoveries with each visit. Stretch your legs out and lie back to feel like you've become absorbed into the cosmos. Planet Seats are luxuriously comfortable; an extraordinary, relaxing experience in themselves.

Here, in the first LED domed planetarium in Japan, a supremely beautiful virtual experience.

### LED dome system DYNAVISON®-LED

Programs in the Dome are not like other planetariums with conventional projectors. LED installed all over the Dome show the visuals. High brightness and wide color gamut are the main features of LED, and they create an ambience that makes the viewer feel they are actually experiencing a beautiful sky filled with stars. A deep blue sky, the splendid colors of a coral reef, and a stirring red sunset. All lead to the Milky Way in the night sky. It's a beautiful world portrayed by DYNAVISON®-LED, one where facts and fiction intertwine. Enjoy a short trip here at Planetaria Yokohama. We'll take you to towns in faraway countries, to the bottom of the sea, and to the edges of the cosmos.

See the official website for information on current shows and to purchase tickets.

## FOYER

### Forget your cares and relax in this lifelike natural environment

The foyer is designed with natural motifs. Look up to see stars shining and clouds floating by. The farther you go, the more distant your everyday life becomes. The cosmos in the Dome is beckoning you in. In the hall you'll notice a unique fragrance — our own original — and sense the journey about to begin.

★Aroma oil is on sale at the Gallery Planetaria gift shop.
